MOCHAMAD DHIAS ATH THARIQ

+6285157065589 • mchmddiazz@gmail.com • Bandung, Indonesia

Software Engineering / Computer Science graduate with hands-on experience as a Freelance Network Engineer, specializing in enterprise **SD-WAN deployment** and configuration for **PT Indomarco Prismatama's** large-scale retail network. Successfully completed installation projects across **Greater Bandung and Priangan Timur**, while leading the Phase 2 execution (Greater Bandung, Sumedang, & Sukabumi). Possesses a solid foundation in TCP/IP, Routing & Switching, along with flexible field readiness tailored for ISP operational needs.

NETWORKING & FIELD EXPERIENCE

Freelance Network Engineer (SD-WAN Project) — *Digiserve by Telkom Indonesia* *Sep 2026 - Present*

Bandung, Indonesia

- Responsible for installing, dismantling/replacing, and configuring SD-WAN hardware at Digiserve enterprise client sites, specifically for PT Indomarco Prismatama's retail network.
- Managed and completed deployments across Greater Bandung and Priangan Timur, currently leading Phase 2 operations covering Greater Bandung, Sumedang, and Sukabumi.
- Executed UTP/Patch Cord cable pulling, labeling, and server rack/CPE cable management on-site.
- Conducted connectivity, throughput, and failover testing to ensure network operations meet agreed quality standards.
- Coordinated with the central Network Operation Center (NOC) team for remote commissioning and device provisioning.
- Prepared accurate Work Completion Reports (LHP) and customer site integration sign-off documentation.

OTHER PROFESSIONAL EXPERIENCE

Sales Direct Selling - PT. XLSmart Telecom Sejahtera (Legacy Smartfren) *Mei 2025 - Apr 2026*

- Conducted intensive fieldwork, maintained strong customer communication, and resolved on-site issues directly.
- Achieved top sales performance in the Andir and Sukajadi areas twice.

Web Developer - PT. Boleh Dicoba Digital *Sep 2019 - Feb 2025*

- Designed and customized client e-commerce websites using Shopify and Liquid templates from brief to public release.
- Consistently optimized website load performance to meet platform benchmarks.
- Redesigned websites based on Figma references, collaborating with design teams to align visuals with functionality.
- Handled technical troubleshooting and prepared issue resolution documentation for client requests.
